Software provider: AG Software LTD
Software provider URL: http://www.aspireglobal.com/

The RNG uses a well-known algorithm to generate random numbers. The numbers generated by this RNG have passed Dieharder tests for statistical randomness.

iTech Labs has also conducted scaling tests for Instant, Roulette and Slots game.

The scaling tests were conducted on large enough samples to give the calculations sufficient statistical power.

iTech Labs has found that the numbers are unpredictable, non-repeatable and uniformly distributed.

The certified code for the RNG has been fingerprinted.

_____ **Alvin Rizaldi** **Chief Executive Officer** **iTech Labs** Date: 19 April 2024	_____ **Divya Bhargava** **Project Manager** **iTech Labs** Date: 19 April 2024

* The RNG was tested according to Spillemyndigheden standards- SCP.01.03.EN.2.1 - Testing Standards for Online Casino.

Disclaimer.
While it is not possible to test all possible scenarios in a laboratory environment, iTech Labs has conducted a level of testing appropriate for a component test of this type.
